

AC500 SEAL Data Sheet

Acme Reg No: 23071785

The Acme 500mm Seal is a variable length seal manufactured from two dissimilar materials. The metal insert is durable and will give extra security, whilst the polypropylene body is long and flexible making it easier to use. The design includes a hot melt welded cap to secure the insert to the body, which provides clear evidence of tampering if forced open or cut.

Technical Data

Recommended Applications

Refineries, Warehouses, Cash bags, Postbags, Mailrooms,

Material

Polypropylene with Biodegradable additives
Stainless Steel
